# The Greatest Bicycle Combination

OUR bicycle experience is not of last year alone,—it is of many years. In all the time, the principle back of it,—the policy which controlled and put it where it is

to-day, - has been to reduce cost but not quality. It began long back. When the standard price was \$135, we scored our first success by wringing a reluctant concession of a few dollars from a manufacturer. But it was not until the Continental came that the first signs of ultimate and tremendous victory were apparent. We opened the bicycle store in New York fresh from a successful campaign in the interests of lower prices, having sold rather more than eighteen thousand high-grade wheels at about one-half the fixed high-Every one knows what happened next. Fifty dollar wheels

have become the rule, rather than the exception. But our campaign is not yet over. In whatever branch of the market we may be, it is our

intention to excel in it, and we shall excel in the bicycle market. It is no longer possible to cut the ruling prices in half and maintain highest excellence, but it is possible to lead in value-giving in a lesser degree.

We present to our public this season a combination of bicycles which we think have the strongest claims upon your favor, and which covers the entire field from the very lowest priced to the very highest. We have selected these wheels from others for reasons of merit, and for no other reasons under the sky.

We have precisely the wheels which we think give the most for the least, and we have the Humber, which is the world's acknowledged best and costliest.

Here is the full list. It is a string of wheels such as never before came under one control. All are sold under the Wanamaker guarantee, which you'll find satisfactory.

## \$100,000 in Princess May Gloves

OUR orders for Princess May Gloves this season will aggregate more than \$100,000. That may give you some idea of the way the public appreciates them.

We are assured that the Princess May is now the only real kidskin glove sold at \$1 in this country. But if there were a thousand others, the Princess May would lead on its own merits. We have just used twelve thousand pairs to dress one of our

ENCYCLOPEDIAS give A Chain of an encyclopedia if you have time enough to find the different links and put them together in their proper sequence without missing one. But very few people have the time for this, and fewer still have the power.

Ridpath's History of the World is a forged chain. The links are not only brought together, they are cunningly welded together, so that each one is a part of all the others, and the whole is smooth, coherent, attractive. And the facts thus presented stay in your memory. Haven't you often looked up the same fact in an encyclopedia twice? You'd remember it if it were a historical fact, and you saw it in Ridpath, because there'd be so many other facts deftly associated with it. All that came before it and all that mind.

Upon payment of One Dollar the complete set is delivered at once. There are eight massive volumes, 6,500 pages, 4,000 illustrations. Members agree to make fifteen monthly payments to complete the transaction-first paysia—by far the more durable and attractive— \$2 a month; for sumptuous full morocco, \$2.50 a month.
